

# Chrome Extension for Disabling CSS

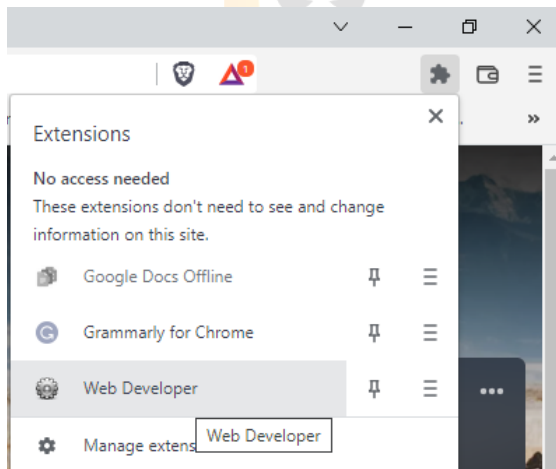

---

If you want you can add this chrome extension to disable the CSS of any website. Then check and learn how important CSS is for styling.

- Go to this link and add this extension to your browser [Link](#).
- Open the website whose CSS you want to disable.
- Click on the icon of the extension on the top left corner of your browser.

- Select the Web Developer extension that you just added as shown.

- Select CSS → Disable All Styles
