

Lecture Overview - Bootstrap

In this lecture, you will learn -

- What are Frontend Frameworks?
- The Bootstrap Frontend Framework to add styling and responsiveness to a website.

Note: You'll be learning bootstrap 4 in this lecture. The recent version of bootstrap is 5 but still, there are many websites that use version 4 that you'll be learning. Once you learn how to explore the bootstrap documentation you'll be good to go to learn version 5 too. In this lecture, you'll also learn the difference between the two versions.

At the end of this lecture -

You will be able to

- Use bootstrap for styling and making a website responsive.
- Explore bootstrap documentation to find the right functionality for your use case.

To make the best use of this lecture, we advise you to keep the same points in mind as suggested for earlier lectures.
